

Business Opportunity Conference for Major Construction Work at the Spallation Neutron Source

Tony Chargin
Division Director
Conventional Facilities

December 13, 2001

Environmental, Safety, and Health

- As of 9/30/01, there were 335,000 construction field hours worked with no loss work time injuries
- As of 11/30/01, there were 385,000 construction field hours worked with 5 recordable injuries but still no loss work time
- Experience Modifier Rate (EMR) has to be less than 1
- Project is compliant with all Federal/State environmental regulations

Good safety practices are not only important from a humanitarian point of view but are necessary as good business practice to improve the bottom line

Public Mission

- SNS is an important science mission for the taxpayers:
 - It is a part of long term research and development
 - It is a accepted economic fact that R & D is the engine that fuels U.S. economy
- We want to be good stewards of taxpayer's investment by:
 - Efficiently using taxpayers' dollars
 - Promoting competition on construction contracts
 - Achieving cost and schedule
- Talented and hard working people are needed for the above objective

Good product for us means good profit for you
